

Applied Mathematics Seminars

2008/2009 Term 3

Tuesday 28th April, 2:00pm Dr. Miguel Bustamante, University College Dublin
Capturing reconnection in Navier-Stokes and resistive MHD dynamics

Tuesday 5th May, 2:00pm Prof. Ivan Graham, University of Bath
Hybrid asymptotic-numerical methods for high frequency scattering

Tuesday 19th May, 2:00pm Prof. Ian Craig, University of Waikato
Anisotropic viscous dissipation in three dimensional magnetic merging solutions

Tuesday 16th June, 2:00pm Dr Natalia Janson, University of Loughborough
Stochastic networks and their control

Unless otherwise indicated, seminars will be held in room 1.43L in the Maths building next to the MSI complex at the top of Old Hawkhill. All interested are welcome to attend. Tea will be available at 3:00pm in the Staff Common Room. External visitors are advised to confirm arrangements with the Secretary: Tel. (01382) 384471.
